Vineyard site	Weinbauggebiet Tikves
Closure	Natural cork
Drinking temperature	17 °C - 18 °C
Aging ability	3 years - 12 years

Vranac (called in the main area Republic of Macedonia Vranec) is a high-quality, indigenous grape variety on the Balkan Peninsula, from which strong, deep-dark, purple, full-bodied red wines are pressed. This wine has an intense ruby red color with strong reds that reflect brilliantly in the glass. In the taste dominates the smell of faded raisins and sugar, alcohol combined with a gentle tannin content. Winegrowing region: Center (Vardar Valley), Winegrowing area: Tikves
