Some of these Grüner Veltliner vineyards were planted as early as the 1960s. They bring high quality because the grapes and berries are very small due to the age of the vines. The ripening potential is also very high. The harvest is rather late, usually only in November. The Grüner Veltliner Alte Reben 14 was ready to drink very early. After the spontaneous fermentation, it was filled into the large oak barrel for maturing. The Green Velltiner Alte Reben 14 shows a beautiful clear straw yellow in the glass. On the nose there are tobacco and ripe pears. The palate is rather spicy and very creamy. It is not an intrusive wine, but captivates with its creamy, full-bodied taste and a long finish. The Grüner Veltliner Alte Reben14 is an excellent accompaniment to pork and lamb.
